

Alexander Hounsou

Founder · Product Designer · Product Engineer

Indianapolis, IN · hounsoumahoutin@gmail.com · 317-384-0676 · alexanderhounsou.com

I design and build conversational AI and enterprise insurance products, carrying the work from research and interaction design through implementation and launch.

EXPERIENCE

Founder · Product Engineer

2025 – Present

Nomi (formerly WithBFF)

- Designed and built an SMS-based financial assistant, now in private beta, with React, Python, Supabase, Plaid, Twilio, Railway, OpenAI and Claude.
- Replaced rigid intent classification with LLM orchestration and composable tools. Reworked onboarding into a trust-first 7-day relationship arc after observing users disengage from budgets they had not built.

Co-Founder · Product Designer

Oct 2024 – Jun 2025

InsuredInsights.ai

- Led product strategy, UX architecture and implementation of an AI policy-comparison platform using React, Python, LangChain, RAG and AWS.
- Chose a structured dashboard over chat so agents could scan renewal changes, check source policy language and make coverage decisions.

Senior UX/UI Designer

Aug 2021 – Present

The Great American Insurance Group

- Designed enterprise insurance portal states around business-unit permissions across policies, claims and billing; contributed to the enterprise design system.
- Shipped Strategic Comp (Oct 2023) and Enterprise BU Migration (Mar 2025). Initiated a UX audit and ranked defects for Phase 2 readiness; supported the ABAIS go-live.

Co-Founder · Product Designer

Jan 2022 – May 2024

Noonclass.com

- Defined the product vision and design system for tutor storefronts, Stripe payments, calendar-integrated booking and session management; partnered with engineering to ship across web and mobile.

Software Engineer Intern · UX Designer

May 2018 – Aug 2018

The Home Depot

- Researched team workflows, prototyped an interactive task visualization board in Figma and built it in React.

SKILLS

Design & Product Design systems · Interaction design · Visual design · Conversational UX · Rapid prototyping · User interviews · Usability testing · Analytics-informed iteration

Engineering TypeScript · JavaScript · React · React Native · HTML · CSS · Python · REST APIs · SQL · Postgres · Supabase

Infra & AI AWS · Railway · Vercel · OpenAI · Claude · LangChain · RAG · LLM Orchestration

Tools Figma · Git · Agile/Scrum · Adobe Illustrator · XD · Sketch

EDUCATION & CERTIFICATIONS

Associate of Computer Science · 2020 · Lift Program Scholarship

UX Design Certification (Nielsen Norman Group) · Google UX/UI Designer (Bootcamp)

Motion Design with Figma (Udemy) · UX Research: User Journey Mapping (LinkedIn)

Design Thinking: Testing & Refining (LinkedIn)

Languages English · Fluent / French · Native / Spanish · Basic Proficiency
